

# Authorize.net Easy Setup

- 1 Get Authorize.net account.
- 2 Go to [www.authorize.net](http://www.authorize.net), and click *Merchant Login*.
- 3 Enter log-in information and click. Submit.
- 4 Click *Settings*.
- 5 Click *API Login ID and Transaction Key*.
- 6 Write down your API Login ID. Scroll down.
- 7 Answer the Secret Question you have already set up with Authorize.net and click Submit.
- 8 Write down your Transaction Key.
- 9 Go to LightSpeed's Credit Card Processing Setup. Choose Authorize.net, and click Setup.
- 10 Enter the API Login ID and the Transaction Key you've written down. You may use the Sandbox setting for testing, and then switch to Live when you are ready to go live. Choose Card Present option, and set your Currency.
